

Client Guide

Introduction

With IRIS OpenSpace files can be accessed from any location. An account is created on IRIS OpenSpace so that documents can be exchanged instantly and securely; just fire up an internet browser and login.

Storing files remotely improves business resilience; protect your company from disaster or weather-related disruption. All the files are stored securely off site so access to them quickly and effective.

Step 1 - Activating your account

An email will be sent to you, see below, asking you to activate your account and set your own password.

1. Click the first link.

Activate your IRIS OpenSpace account

Dear Test Data,
